MassHighway and the Executive Office of Housing and Economic Development are joint proponents for the I-93 Tri-Town Interchange Project. The project will add a new interchange between Interchanges 41 and 42 and also add a lane between Interchange 41 and Interstate 495. The project will reduce congestion, improve safety, support the communities' goals for sustainable development and mixed-use projects, minimize environmental impacts and support the vision of a proposed life sciences and high technology corridor.

The purpose of this public meeting is to discuss the *Purpose and Need Statement* for the project. Participants can view information and speak with project staff during the Open House segment of the meeting. The presentation will describe the elements and goals of the project. Members of the public, business owners, elected and municipal officials are encouraged to participate and comment on the goals of the project. The *Purpose and Need Statement* is a relatively short document (1-2 pages) that outlines the need for the project and the goals and purposes it will serve.

If you have questions or would like a copy of the *Purpose and Need Statement* to review before the Scoping Meeting, please contact John Fallon at MassHighway, 617-973-7408.
